

Good Morning. Its \_\_\_\_\_ (day of week, i.e. Wednesday), \_\_\_\_\_ (month & date, i.e. February 5th, 2007).

Welcome to the Knobby Knee Net. This Amateur Radio net meets daily, 365 days a year at 7:00 AM local time, on a frequency of 147.220 MHz, with a PL access tone of 162.2 Hz, using the Verde Valley Amateur Radio Association's 2-meter FM repeater located high atop Mingus Mountain at an altitude of about 7800 feet.

The Knobby Knee Net is open to all licensed Amateur Radio operators, both club members and non-club members.

My name is \_\_\_\_\_ (your name & call sign), and I will be acting as net control this morning. We will always break for emergency traffic no matter when it occurs.

I will now call for mobile, short time, EchoLink, regular and guests check-ins in that order.

Mobile stations check in now. I will acknowledge each one, and then the next one may check in.

Shorts check in now. I will acknowledge each one, and then the next one may check in.

I will take an 8-second pause for any EchoLink check-ins. Please come now.

Regular and guests check-ins, please come now. I will acknowledge each one, and then the next one may check in.
